PHILLIP D. ROOS
DIRECTOR

October 2, 2023

ACKNOWLEDGEMENT OF RECEIPT OF A BASELINE ENVIRONMENTAL ASSESSMENT

BEA ID: 63501579-BEA-1

Village of Lake Orion Downtown Development Authority
118 North Broadway Street
Lake Orion, Michigan 48362

Property:

215 South Broadway Street
Lake Orion, Michigan 48362

On September 5, 2023, the Michigan Department of Environment, Great Lakes, and Energy (EGLE) received a Baseline Environmental Assessment (BEA) dated March 21, 2023 for the above legal entity and property. This letter is your acknowledgement that EGLE has received and recorded the BEA. EGLE maintains an administrative record of each BEA as received.

This BEA was submitted pursuant to Section 20126(1)(c) of Part 201, Environmental Remediation and/or Section 21323a(1)(b) of Part 213, Leaking Underground Storage Tanks, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA). A BEA is submitted for the purpose of establishing an exemption to liability for a new owner or operator of property that has been demonstrated to be a facility or property as defined by Section 20101(1)(s) of Part 201, Environmental Remediation and/or property as defined by Section 21303(d) of Part 213, Leaking Underground Storage Tanks, of the NREPA. Pursuant to Sections 20126(1)(c) and 21323a(1)(b), the conditions of this exemption require the legal entity to disclose the BEA to a subsequent purchaser or transferee of the property.

The BEA is only for the legal entity and property, or properties identified on the BEA Submittal Form and in the BEA that have been demonstrated to be a facility. Each new legal entity that becomes the owner or operator of this facility must submit their own BEA.

EGLE is not making any findings about whether the submitter is liable or is eligible to submit. The submitted BEA does not alter liability with regard to a subsequent release, threat of release, or exacerbation of existing conditions that is the responsibility of the legal entity submitting the BEA.

EGLE does not review BEAs to determine the adequacy of the submittal. The 2020 Volatilization to Indoor Air Pathway (VIAP) Screening Levels (SLs) may be proposed as site-specific criteria when used to determine that a property is or contains a facility or site. ELGE's approval of these numeric site-specific criteria is required. Since the BEA has not

been reviewed, if the BEA relied upon the 2020 VIAP SLs then their use within the BEA is approved only for the purpose of confirming the status of the property as a facility under Part 201 or a site under Part 213.

The legal entity, as the owner and/or operator of a facility or property, may have Due Care responsibilities under Section 20107a of Part 201, Environmental Remediation and/or Section 21304c of Part 213, Leaking Underground Storage Tanks, of the NREPA.

The legal entity may also have responsibility under applicable state and federal laws, including, but not limited to, Part 201, Environmental Remediation; Part 111, Hazardous Waste Management; Part 211, Underground Storage Tank Regulations; Part 213, Leaking Underground Storage Tanks; Part 615, Supervisor of Wells, of the NREPA; and the Michigan Fire Prevention Code, 1941 PA 207, as amended. Please review the enclosed brochure on "due care." An owner or operator of contaminated property has an obligation to assure the property is safe for the intended use and is protective of the public health and safety.

Pursuant to Section 20112a(6) of Part 201, Environmental Remediation, the property(s) identified in the BEA will be placed on the inventory of facilities, which is updated daily and posted on EGLE's website <https://www.egle.state.mi.us/RIDE/inventory-of-facilities/facilities>
